Sometime before dawn I doze briefly and awaken from a nightmare. I am disoriented and can't remember the entirety of the dream, but I do remember hard wires and soft flows of electrons. My eyes suddenly focus and I see her face inches away from mine. Somehow she knows what I am thinking. "Whose turn is it?" she says. The antenna. I had to get up early the next morning. I always spent Sunday with my mother in Inglewood. My mother was touring Yucatan at the time, but that was neither here nor there. I looked at Johnny. He nodded. He was to make sure Detweiler stayed at least another twenty minutes and then follow him when he did leave. If he went anywhere but his apartment, he was to come and let me know, quick. The graveyard, where they had buried their fifteen dead crewmates on the first day of the disaster, had sprouted with life during the week after the departure of the Burroughs. It was separated from the original site of the dome by three hundred meters of blowing sand. So McKillian assumed this second bloom was caused by the water in the bodies of the dead. What they couldn't figure out was why this patch should differ so radically from the first one. temperature and pressure were nearly Earth-normal. "Anywhere," he replied. "Implicitly." On his other forearm there was a crudely executed rose with his name underneath: Marvin Kolodny, Ph.D. "Who is Freddy?" It was not unexpected; Lang had been waiting for it to happen since the night the Burroughs left. But she had not worried about it. Then, as though they'd been waiting for these preliminaries to be concluded, tears sprang to her eyes. A tremor of heartfelt emotion colored her lovely contralto voice as she said, "Oh Jesus, what am I going to do? I can't take any more! I am just so ... so goddamned wretched! I'd like to kill myself. No, that isn't true. I'm confused, Larry. But I know one thing? I am an angry woman and Fra going to start fighting back!". Lang worked them harder than ever, making up for the lost time. "And that?" asked Amos, pointing to the trunk. "No way," she says. "He didn't and he won't. He doesn't like what I do." I can't think of anything to say now. After a while Jain rescues me, "It isn't your hassle, and it isn't mine anymore." 48. "Sure," Song said, peering along his pointed finger. "Just show me the damn thing and I'll immortalize you." "I know. I'll call you back tomorrow." She switched the set off and sat back on her heels. "I swear, if the Earthside tests on a roll of toilet paper didn't ... he wouldn't. . ." She cut the air with her hands. "What am I saying? That's petty. I don't like him, but he's right" She stood up, puffing out her cheeks as she exhaled a pent-up breath. swamp. At four o'clock the next morning when the dawn was foggy and the sun was hidden and the air was grey as grey can be, the ship pulled up to the shore of a great, grey, dull, tangled, boggy, and baleful swamp. The water was heated by the sun then pumped down to the permafrost, melting a little more of it each. "I refuse to accept that as a final answer," he said. "But in the meantime we should explore the Earth and

Moon? And why right here, in the graveyard?" "No, absolutely not. We're still basically in love. After all, most married couples end up not saying much to each other. Isn't that so? Even before Debra got religious, we weren't in the habit of talking to each other. To tell the truth, Dr. Kolodny, I've never been much of a talker. I think I was put off it by the compulsory talk we had to do in high school." He examined the dome as he walked back to camp. There was a figure hazily visible through the plastic. At this distance he would have been unable to tell who it was if it weren't for the black face. He saw her step up to the dome wall and wipe a clear circle to look through. She spotted his bright red suit and pointed at him. She was suited except for her helmet, which contained her radio. He knew he was in trouble. He saw her turn away and bend to the ground to pick up her helmet, so she could tell him what she thought of people who disobeyed her orders, when the dome shuddered like jellyfish. I got back to my apartment on Beachwood fairly late Sunday night and barely had time to get on the 16th, healthy the 17th, and sick again the 19th. "Why don't you tell me what you think? The title of the story was "Deathsong." I wished I'd had time. I looked around to make sure I hadn't disturbed anything, turned off the bathroom light, and got in the closet, leaving the door open a crack. It was the only possible place to hide. I sincerely hoped Detweiler wouldn't need anything out of it before I found out what was going on. If he did, the only thing I could do was confront him with what Td found out. And then what, Mallory, a big guilty confession? With what you've found out, he could laugh hi your face and have you arrested for illegal entry. "Right here on the mountain?" I say. "You have answered all three questions wrong," said Lea, sadly. Then somebody grabbed the grey endorsement? with a hat of paper feathers and polyhedrons. You say it is windy there. I shall need a good supply of rope, then, and perhaps you can spare a man to go with me. A rope is not much good if there is a person only on one end. If I have someone with me, I can hold him if he blows off and he can do the same for me." Amos turned to the sailors. "What about that man there? He has a rope and is well muffled against the wind." **Not at all." It's a cliché of the American entertainment industry that if it works (i.e., if it makes money), do it
