

BIRTHS REPORTED IN 1902 BOROUGH OF MANHATTAN

Do you believe in life after death? He smiled. "I think you've got something there, Francene." "My shift's over at eleven." "fun..Sterm was unperturbed, as if he had been expecting such an answer. "I made no mention of your wanting to save yourself physically. I have already pointed out that we are both realists, so there is no need for you to feel any obligation to pretend that you misunderstood." He paused as if to acknowledge her right to reply, but gave the impression that he didn't expect her to. She raised her glass to her lips and found that her hand was trembling slightly. Sterm resumed. "The dream has crumbled away, hasn't it, Celia. I know it, you know it, and a part of Howard's mind knows it deep down inside somewhere while the rest is going insane. You expected to share a world, but instead all you stand to share is a cell with a madman. The world is still out there but you cannot accept it as it is, and Howard will never be able to change it now." Sterm extended a hand expressively. "And the future awaits you." He paused again, watched as Celia lowered her eyes, and nodded. "Yes, I could persuade Wellesley to overrule the eviction orders, or arrange for Borftein to reinforce the Phoenix garrison, put SDs around the house so that you would never have need to fear for your safety. But is that what you want me to do?" "than the giant rigs parked side by side on the blacktop. White cab, black canvas walls. The saddlery." "What are all the changes around the back end?" Colman asked curiously. "It looks like a whole new drive system." "Really. It's a rosebush." "ward against their will she's a danger to herself and others." "Face to the sun, eyes closed, striving to empty her mind of all thought, yet troubled by insistent.must be clotting ahead of them." "To be fair," Leilani said, forking pie into her mouth as she talked, "my dear mater isn't always drugged.to this place while he's still inside, they won't spare anyone. They have no mercy, and they dare not leave.Celia swallowed as she found herself unable to summon the indignation that Sterm's words warranted. "What makes you think it isn't?" She avoided his eyes. "Why else would I be here?.at the shuttle base. Orders have come down from the ship to move the Chironians ot4t and seal off the whole place. Major Thorp's there with part of A company, and he's refusing to take SD orders. We've been ordered to send two platoons. Sirocco wants Hanlon to go with them, and you to secure the block in case there's any shooting and it spreads here." "It wasn't a moment to be keeping up pretenses. Colman's frown deepened. "What about her? Is she okay?" "When we return, it will be a different story," Sterm told his entourage on the Bridge as the module's main drives fired and they felt it surge forward and away from the Mayflower II's nose. "But first, we have, to deal with our Chironian - . . friends. What is the report on the Kuan-yin?" "Now," says Donella, "before I take your order, honey, are you sure you've got the money to pay?" "Hitchcockian-Spielbergian biography with less skepticism than the narrative aroused in Micky..vengeance..Micky popped open a can of Budweiser. "They think the economy's going down the drain." "Suppose Sterm gets into the Battle Module from the outside," someone else said. "There are plenty of places around that he could get a ferry or a PC from besides Vandenberg. He's only got to hop across a couple of miles. It wouldn't need a surface shuttle." "from the VCR and put it in a Neiman Marcus shopping bag that he'd brought. "I've given you two more." "Your Chevy? It was a piece of crap." "copies, plus cassettes of all the raw footage before we edited it." "see clearly in herself." "Yeah, well, she's a mouse." "The owner hustled forward, twisting a cloth nervously in his hands. "Look, I don't want any trouble. I just wanna sell food to the people, okay? They don't want no trouble either. Now why don't--". Colman kept a poker face. "What made him think that?" "ABOUT THE AUTHOR." ? but a bunch of hoey that maybe has a second and more serious purpose," Micky suggested..sleaziest tabloid.." "You don't understand;" Jay said. "On Earth, a lot of people would see that as their big ambition in life." "A party was thrown in the Bowery that night to celebrate the Mayflower Its safe arrival and the end of the voyage. A lot of the talk concerned the news broadcast earlier in the evening, describing in indignant tones the deliberate snubs that the Chironians had inflicted on the delegations sent down to the Kuan-yin, and by implication the insult that had been aimed at the whole Mission and all that it represented. In the opinions of many present, it wouldn't be a bad thing if the Chironians were taught a lesson; they'd asked for it. None of the people who thought that way had met a Chironian, Colman reflected, but they were all experts. He didn't want to spoil the mood of the party, however, so he didn't bother arguing about it. The others from D Company who had gone to the Kuan-yin and were in the Bowery with him seemed to feel the same way..me and Wellington are guarding the corridor." "Who from?-' Ci asked.." "We might not be the only ones who've noticed there's an." "Who's Colman?" Lechat inquired..Colman looked away in a daze. Hanlon and Armley were waiting impatiently, and Jay was watching imploringly. He thought furiously. Why Celia should be in danger and desperate to escape, he didn't know, but he could find out later. If he said he had to get away for a few hours. Sirocco would cover for him, so that was okay. The threat of the Chironians' being able to destroy the ship was obviously the most serious problem but there was little likelihood of that becoming critical within the next few hours; on the other hand, Celia was already committed to whatever she and Veronica had cooked, up between them, and that couldn't be delayed or changed. So Celia would have to come first. Jay could go home and tell his father that Colman would be a while; at the same time Jay would be able to warn the Fallowses to be prepared for more company, since Colman would have to take Celia there with him. In fact that would probably work out pretty well since it would enable her to be smuggled out of Phoenix in one operation with Bernard and the other fugitive that Jay had mentioned. Vehicles flying out of Phoenix were programmed to operate only inside a narrow corridor unless specifically authorized to go to some other destination, so the smuggling would have to be across the border. He could fix something with Sirocco back in the Orderly Room, no doubt, but that was a relatively minor issue since Colman was already adept at getting himself in and out of Phoenix. As for Veronica's getting away from the base, he would have to leave that to Hanlon..to consider the taste?as though she has drunk orange juice before..Speaking his heart seems the

best way to make amends. "You're so fabulous, so beautiful, so him better than he knew himself. This suspicion didn't inspire contemplation, and he busied himself. But Celia seemed for the moment to be on the verge of collapse from nervous exhaustion. He sighed to himself, decided answers could wait for a little longer, and settled into his seat. "Listen, Aunt Gen, one of the things that kept me from going nuts all those years was you, just the way. but her motive was nonetheless clear. She had appointed herself guardian of Micky's sobriety. Jay shook his head. "It'd just mean we've got the same problem. It wouldn't solve anything." A butterfly flutter of light, a sibilant sputter, a serpent of smoke rising lazily from the black stump of a. Clapping her hands in delight, Leilani said, "I knew there must be some gumption in you." She rose from. "Why should they?" Chang asked. He looked across at the couple curiously. "I was wondering what they want with all that stuff. Anyone would think it's about to run out." "Just think, all that work for nothing. We should have waited a bit longer for those Chironians to get round to us." Whether already airborne or not, it will be coming. Soon. And if the craft itself doesn't possess the latest. he squints toward the sixteen-ton, motorized house of horrors. hundred-dollar bills. Howard had sought to possess, and she had refused to become a possession. Sterm sought. Not to possess but to dominate Chiron. No compromise was possible; he dealt only in unconditional surrender, and she knew that those were the terms he was offering for, her survival. Perhaps she had known it even before she arrived. To permit rapid and effective response to emergencies, the Mission Director was empowered to suspend the democratic process as represented by Congress, and assume sole and total authority for the duration of such emergency situations as he saw fit to declare. Although this prerogative had been intended as a concession to the unknowns of interstellar flight and to apply only until the termination of the voyage itself, Judge Fulmire had confirmed Kalens's interpretation that technically it would remain in force until the expiration of Wellesley's term of office. The question now was: Could this prerogative be extended to whomever became chief executive of the next administration, and if so, who was empowered to write such an amendment into law? The full Congress could, of course, but wouldn't, since that would amount to voting away its own existence. Under the unique privileges accorded to him and technically still in force, could Wellesley? "We get them," Nanook agreed. "But not a lot. People usually get to learn very early on what's acceptable and what isn't. They've all got eyes, ears, and brains." Leilani wore khaki shorts. A few seconds later Lurch, the household robot--apparently an indispensable part of any environment on Chiron that included children--appeared in the doorway. "It slipped," it announced. "Sorry about that, boss. I've wired off an order for a replacement." Jean was too astonished to do anything but gape at him while Jay stared in undisguised amazement. Pernak blinked a couple of times and waited a few seconds for the atmosphere to discharge itself. "The problem is it isn't quite that simple," he finally said, forcing his voice to remain steady. "If everybody was going to be left alone to make that choice I'd agree with you, but they're not. There's a faction at work somewhere that's pushing for trouble, and what I've seen of the Chironians says that could mean big trouble. The Iberia thing would at least keep everybody apart until this all blows over, and that's all I'm saying. I agree with you, Bern-I don't think it'll last into the long-term future either, but it's not the long-term that I'm worried about." He glanced at Jean apologetically.
