A nest of international spies or an invasion from Mars?" I guess Harry Spinner wasn't much use to anyone, not even himself, but I liked him. He'd helped me in a couple of cases, nosing around in places only the Harry Spinners of the world can nose around hi unnoticed. I was beginning to get the idea he was trying to play Doctor Watson to my Sherlock Holmes.. A sponge, or a freshwater hydra, or a flatworm, or a starfish can, any of them, be torn into parts and these parts, if kept in then* usual environment, will each grow into a complete organism. The new organisms are clones.. matter of practical fact, however, a mother's womb can only hold so much, and if there are multiple. An organ replacement would be grown and since it would have precisely the same genetic equipment as the old, the body would not reject it ?Surely that is the best possible application of cloning.. "No, sir," Colman replied stiffly, keeping his eyes fixed straight ahead. "Corporal Swyley was manning the compack. He would not have been assigned to ELINT analysis. Our house burned down. I was taken in by a balmy old woman who lived not far away. I had some kin, but they didn't want me." He looked at me, trusting me. "They're pretty superstitious back in there, you know. Thought I was . . . marked. Anyway, the old woman took me in. She was a midwife, but she fancied herself a witch or something. Always making me drink some mess she'd brewed up. She fed me, clothed me, educated me, after a fashion, tried to teach me all her conjures, but I never could take 'em seriously." He grinned sheepishly. "I did chores for her and eventually became a sort of assistant, I guess. I helped her birth babies . . . I mean, deliver babies a couple of times, but that didn't last long. The parents were afraid me bein' around might mark the baby. She taught me to read and I couldn't stop. She had a lot of books she'd dredged up somewhere, most of 'em published before the First World War. I read a complete set of encyclopedias? published in 1911." . Suddenly it was dusk, and Hinda looked up with a start. "You must go now," she said.. structures and pulsing organs can be seen.. believe it for one minute! Nobody's going to incur Divine Wrath just for making sure he's got enough. She threw up her hands. "How can I make you understand? This is nothing like anything I've ever flown. You might as well. . ." She groped for a comparison, trying to coax it out with gestures in the air. "Listen. It turned out that they were safe from that imagined danger. There were spores in the air now, but they were not dangerous to the colonists. The plants attacked only

certain kinds of plastics, and then only in certain stages of their lives. Since they were still changing, it bore watching, but the airlocks and suits were secure. The crew was enjoying the luxury of sleeping without their suits.. "In just a moment," said the thin grey man, "you will see a man living through the happiest moment of his life. But first I must make sure my nearest and dearest friend can see too." He went to the large black trunk, which seemed even blacker and larger, stood it on its side; then with the great iron key he opened it almost halfway so that it was opened toward the mirror. But from where Amos and Jack were, they could not see into it at all. "ready. How about you?"
