

ELIZABETHAN SONNETS NEWLY ARRANGED AND INDEXED

Alone again with Wally, Celestina said, "They told me that once you regained consciousness, I can only visit ten minutes at a time, and not that often, either." It was hard for him to lie. He thought he was awkward at it because he had no practice. Hound knew better. He knew that magic itself resists untruth. Conjuring, sleight of hand, and false commerce with the dead are counterfeits of magic, glass to the diamond, brass to the gold. They are fraud, and lies flourish in that soil. But the art of magic, though it may be used for false ends, deals with what is real, and the words it works with are the true words. So true wizards find it hard to lie about their art. In their heart they know that their lie, spoken, may change the world. Yet, uncaught, the quarter would have dropped to the floor. Junior would have heard it ring off the tiles. Which he hadn't. He was astonished that adoption records would be sealed and so closely guarded when a child was being placed with a member of its immediate family, with its mother's sister. Her mouth was as greedy as it was ripe, and her pliant body radiated volcanic heat, and as Junior slipped his hands under her skirt, his mind teemed with thoughts of sex and wealth and power, until he discovered that the heiress was an heir, with genitalia better suited to boxer shorts than to silk lingerie. On the serving tables, the canap? trays held only stained paper doilies, crumbs, and empty plastic champagne glasses. Gradually, she perceived that Lipscomb was more troubled than he should have been, considering that his patient had died through no fault of his own. He must be careful in his approach to her. He dared not rush into this. Think it through. Devise a strategy. This valuable opportunity must not be wasted. To have the best chance of becoming a master mechanic, any young apprentice needs a mentor. The art of total card control cannot be learned entirely from books and experimentation. She thought of herself as a creative person, a capable and efficient and committed person, but she did not think of herself as a strong person. Yet she would need great strength for what lay ahead. The reception still roared in both showrooms of the gallery. Legions of the uncultured, taste-challenged in every regard except in their appreciation for hors d'oeuvres, yammered about art and chased their cloddish opinions with mediocre champagne. In case someone was waiting in the hallway, he flushed the john for authenticity, though binding foods and paregoric still gave him the sturdy bowels of any brave knight in battle. Barty, at the head of the table, sensed Mary's approach only as she was about to touch him. She put a hand on his arm and said, "Daddy, will you turn your chair away from the table and let me sit on your lap?" Sweaty, chilled, trembling, weak-kneed, watery-eyed with self-pity, Junior spread a plastic garbage bag on the driver's seat. He got in the Suburban, twisted the key in the ignition, and groaned as the engine vibrations threatened to undo him. Junior lifted the pattie with a fork, found no quarter under it, and put the meat on one half of the bun. He constructed the sandwich from these fixings, added ketchup and mustard, and took a great, delicious, satisfying bite. In fact, although weak and achy, Junior felt mentally refreshed and wonderfully alert. When he located the new grave, approximately where he'd guessed that it would be, he was surprised to find a black granite headstone already set in place, instead of a temporary marker painted with the. If Junior had realized that they were driving only a block and a half, he wouldn't have followed them in the Mercedes. He would have gone the rest of the way on foot. When he pulled to the curb again, a few car lengths behind the Buick, he wondered if he had been spotted. At the open kitchen door, arms laden with a stack of four bakery boxes, her mother said, "Will you get those last four pies for me there on the table? And don't jostle them, dear." Rudy Hackachak--Big Rude to his friends--was six feet four, as rough-hewn as a log sculpture carved with a woodsman's ax. In a green polyester suit with sleeves an inch too short, an unfortunate urine yellow shirt, and a tie that might have been the national flag of a third world country famous for nothing but a lack of design sense, he looked like Dr. Frankenstein's beast gussied up for an evening of barhopping in Transylvania. Perhaps his sister intuited what Edom was about to say, because she didn't let him get started. The Bright Beach Library was open until nine on Friday evening. Arriving an hour before closing, they returned the Heinlein novels that Barty had already read and checked out the three that he wanted. In a spirit of optimism, they borrowed a fourth, Podkayne of Mars. dent? You do believe that? Because I don't see ... I don't know how could work with someone who thought I was capable of . . . ". This morning, only his love for his sister, Agnes, gave him the courage to drive and to become the pie man. "I'm going to tell you something about your father that might comfort you," he said, "but you can't ask me for more than I'm ready to say right now. It's all a part of what I'll discuss with you in Bright Beach." After the amusement park, no hospital for the Pie Lady. With Wally near, she had a doctor all her own, capable of giving her the anticancer drugs and transfusions that she required. While radiation therapy is prescribed for acute lymphoblastic leukemia, it is much less useful to treat myeloblastic cases, and in this instance, it wasn't deemed helpful, which made treatment at home even easier. In the city again, he stopped long enough to donate the raincoat to a homeless man who didn't notice the few odd stains. This pathetic hobo happily accepted the fine coat, donned it--and then cursed his benefactor, spat at him, and threatened him with a claw hammer. "That's kind of you," Panglo stammered, "but I have little time for reading, very little time." Tom Vanadium was no alarmist, and the most logical explanation came to him first. Paul had wanted to learn how to roll a quarter across his knuckles, and in spite of being dexterously challenged, he practiced hopefully from time to time. No doubt, he had sat at the table this morning--or even last evening, before bed--dropping the coin repeatedly, until he exhausted his patience. Grinning but with an odd edge of concern in his expression that Celestina could see even through her tears, Wally said, "Does that mean you ... you will?" Clearly touched and intrigued, the magician nevertheless circled the offer in search of reasons to decline, before at last shaking his head sadly. "I doubt that I'm the caliber of person you're looking for, Mrs. Lampion. I wouldn't be entirely a credit to your project." He slipped behind the door and raised the pewter candlestick over his head. Weighing perhaps five pounds, the object made a formidable bludgeon, almost as good as a hammer. "Oil and

natural-gas pipelines will fracture, explode. A sea of fire will wash cities, killing hundreds of thousands more." The magazine covers were colorful, lurid, full of violence and eeriness and the coy sexual suggestiveness of a more innocent time. Most days, he read a story while eating the two pieces of fruit that were his lunch, but sometimes he lost himself in a particularly vivid illustration, daydreaming about far places and great adventures..He had never associated Enoch Cain's dreaded Bartholomew with the disciple Bartholomew in Harrison White's sermon, which had been broadcast once in December '64, the month prior to Naomi's murder and again in January '65. Even now, with blood-scrawled-and-stabbed Bartholomew on the wall and with This Momentous Day before him in the brochure, Tom Vanadium couldn't quite make the connection. He strove to pull together the broken lengths in this chain of evidence, but they remained separated by one missing link..A rescuer instructed her to close her eyes and turn her face away from the passenger's door. He shoved a quilted mover's blanket through the window and arranged this protective padding along her right side..Although the distance to the ground was only ten feet, she would be risking too much by running blindly off the roof and leaping to clear the fringe of fire at the edge. A landing on the lawn might end well. But if she fell onto the walkway, she might break a leg or her back, depending on the angle of impact..Just as Celestina snapped shut the latches on the suitcase and turned to the door, a nurse's aide entered, pushing a cart loaded with towels and bed linens..lawn before they knew that the prodigy's invisible cloak wouldn't accommodate him as it did the girl. Cool, drenching rain pounded Tom at once, and he scooped Barty off the steps as Grace had gathered up.The social worker's office once more. Rain tapping lightly at the window where Dr. Lipscomb had stared intently into the fog as he tried to avoid confronting the life-changing revelation that Phimie, speaking with the special knowledge of the once-dead, had shown him..He raised the window in the kitchen and climbed outside, onto the landing of the fire escape. Feeling like a high-roaming cousin to the Phantom of the Opera, bearing the requisite fearsome scars if not the unrequited love for a soprano, Vanadium descended through the foggy night, down two flights of the switchback iron stairs to the kitchen at Cain's apartment.."Lock it anyway. And don't hang up. Stay on the line until the patrolmen get there." Throughout this procedure, Barty appeared solemn and thoughtful. When he had squeezed the tenth toe, he stared at it, brow furrowed..They didn't mind, and down they went in a controlled descent that was nevertheless too quick for Agnes..Jacob's mentor had been a man named Obadiah Sepharad. They had met when Jacob was eighteen, during a period when he'd been committed to a psychiatric ward for a short time, his eccentricity having been briefly mistaken for something worse..The paramedic put aside the needle, having used it, and grabbed the paddles of a..The paramedic snatched the oxygen feed from his patient's nose and quickly elevated his head, providing a purge towel to catch the thin ejecta..Before he searched the bedroom, Vanadium walked quickly back through the rooms that he had already inspected, suddenly remembering the three bizarre paintings of which Nolly, Kathleen, and Sparky had spoken, and wondering how he could have overlooked them. They were not here. He was able to locate, however, the places on the walls where the art works had hung, because the nails still bristled from the pocket plaster, and picture hooks dangled from the nails.."I know how to build boats, how to sail boats." Clutching the blanket, she thought of the funerary lap robes that red the legs of the deceased in their caskets, for she felt sometimes cove half dead. Both feet in this world-yet walking beside Joey on a strange road Beyond..Junior's body betrayed him as before, and also in new ways that terrified and humiliated him, involving every bodily fluid except cerebrospinal. For a while, inside that rocking ambulance, he wished that he were in a gondola upon the waters of the Styx, his misery at an end..slow breaths, and then she pointed at the windshield. "The hospital's that way." Rescuers appeared with hydraulic pry bars and metal cutting saws. Civilians were shepherded back to the sidewalks..Edom, who had never made it big, medium, or little, watched his sister blur before him. He strove to contain the shimmering hotness in his eyes. His love was not for magic, and his pride was not in any skill he possessed, for he possessed none worth noting. His love was for his good sister; she was his pride, too, and he felt that his small life had precious meaning as long as he was able to drive her on days like this, carry her pies, and occasionally make her smile..Shaking his head, his coffee cup rattling against the saucer, Edom said, "Uh, no, sir, no, I don't think we've ever met till now." Drawn one after the other, two knaves of spades didn't signify two deadly enemies, but meant that the enemy already predicted by the first would be unusually powerful, exceptionally dangerous..Now, here, all three on the street and vulnerable at once-the man, Celestina, the bastard boy..ROCKING AS IF AFLOAT on troubled waters, abused by an unearthly and tormented sound, Junior Cain imagined a gondola on a black river, a carved dragon rising high at the bow as he had seen on a..The possibility that he'd left a clear fingerprint on the watch crystal had to be judged remote. And the band had been too textured to take a print useful to the police..Whereas Paul had been confounded in his desire to express his admiration for Salk, he was able to speak about Perri at length and with ease. Her wit, her heart, her wisdom, her kindness, her beauty, he goodness, her courage were the threads in a narrative tapestry that Pad could have continued weaving for all the rest of his days. Since her death, he hadn't been able to talk about her with anyone he knew, because his friends tended to focus on him, on his suffering, when he wanted them only to understand Perri better, to realize what an exceptional person she had been. He wanted her to be remembered, after he was gone, wanted her grace and her fortitude to be recalled and respected. She was too fine a woman to leave without a ripple in her wake, and the thought that her memory might pass away with Paul himself was anguishing..He slipped the card out from under the change, turned it over. A joker. Printed in red block letters across the card was a name, BARTHOLOMEW..Agnes was only thirty-nine years old, full of plans and vigor, so Angel's words seemed premature. Yet in too few years, she would have reason to wonder if perhaps these gifted children foresaw, unconsciously, that she would need the comfort of having witnessed this climb..He would never allow himself to be bankrupted and made poor again. Never. His fortune had been won at enormous risk, with great fortitude and determination. He must defend it at any cost..Somewhere, he does. Daddy died here, but he didn't die every

place I am. it's lonely for me here, but not lonely for me everywhere..The window was French with small panes, so Celestina couldn't simply break the glass and climb out..The owner's attitude softened somewhat with Junior's reference to the quarter, and softened even further when together they returned to the counter to see the proof in the cheese. He went from righteous anger to abject apology..Eventually, a braless blonde in shiny white plastic boots, a white miniskirt, and a hot-pink T-shirt featuring the silk-screened face of Albert Einstein, said, "Sure, I know her. Had some classes with her. She's nice enough, but she's kind of nerdy, especially for an Afro-American. I mean, they're never nerdy--am I right?".Not a word of that would come to Paul, but his frustrating speechlessness might have been for the best. From everything he knew about this hero, such effusive praise would embarrass him..Studying the brochure, Junior felt that the best response to this artist's work was to go directly into the bathroom, stick one finger down his throat, and purge himself. Considering his medical history, however, he couldn't afford to be such an expressive critic..Desperately trying to collect her wits, Agnes gazed out at the deluged graveyard, where the mournful trees and massed monuments were blurred by purling streams ceaselessly spilling down the windshield..He hadn't intended to enter the gallery. No one in his usual circles would attend this show, unless in such a state of chemically altered consciousness that they wouldn't be able to recall the event in the morning, so he wasn't likely to be recognized or remembered. Yet it seemed unwise to risk being identified as a reception attendee if Celestina White's little Bartholomew and maybe the artist herself were murdered later. The police, in their customary paranoia, might suspect a link between this affair and the killings, which would motivate them to seek out and..He hadn't heard the cop get out of the chair and cross the dark room. Difficult."Science. Quantum mechanics. Which is a theory ... of physics. But by theory, I don't mean just wild speculation. Quantum mechanics works. It underlies the invention of television. Before the end of this century, perhaps even by the '80s, quantum-based technology will give us powerful and cheap computers in our homes, computers as small as briefcases, as small as a wallet, a wristwatch, that can do more and far faster data processing than any of the giant lumbering computers we know today. Computers as tiny as a postage stamp. We'll have wireless telephones you can carry anywhere. Eventually, it will be possible to construct single-molecule computers of enormous power, and then technology-in fact, all human society-will change almost beyond comprehension, and for the better."."Oh!" She blotted her eyes on the heels of her hands. "Wait! Give me a second chance. I can do it better, I'm sure I can."."The city was less than seven miles on a side, only forty-six square miles, but Junior was nevertheless faced with a daunting task. Hundreds of thousands of people resided within the city limits..Junior gave the Raisinets to him, and Google left the theater with his candy and his cash..Junior couldn't imagine why some Negro stranger would want to intrude. He hoped there wouldn't be trouble..She was a hero, just like you. I wanted you ... I wanted you to see her and to know her name. Perri Damascus. That was her name."."All right. Well ... Jesuits are encouraged to pursue education in any subject that interests them, not theology alone. I was deeply interested in physics."."After Bellini left, Tom questioned Celestina extensively, with an emphasis on Phimie's rape. Although the subject was painful, she was grateful for the questions. Without this distraction, in spite of her well of hope, she might have allowed her imagination to fashion terror after terror, until Wally had died a hundred times over in her mind..He ran gasping, praying, feet slapping the concrete sidewalk, frightening birds out of the purple brightness of blossom-laden jacarandas and out of Indian laurels, terrorizing a tree rat into a lightning sprint up the bole of a phoenix palm. The few people he encountered reeled out of his way. Brakes shrieked as he crossed intersections without looking both ways, risking cars and trucks and rhinoceroses..Later, in early '66, out of his coma and recovering sufficiently to have visitors, Vanadium spent a most difficult hour with his old friend Harrison White. Out of respect for the memory of his lost daughter, and not at all out of concern for his image as a minister, the reverend had refused to acknowledge either that Seraphim had been pregnant or that she'd been raped-although Max Bellini had already confirmed the pregnancy and believed, based on cop's instinct, that it had been the consequence of rape. Harrison's attitude seemed to be that Phimie was gone, that' nothing could be gained by opening this wound, and that even if there was a villain involved, the Christian thing was to forgive, if not forget, and to trust in divine justice..More than twice, worried nurses-and even a resident internist braved the tumult to check on Junior's condition. They asked if he really felt up to entertaining visitors, these visitors..She got a can of soda, returned to the table, and sat down as if finished with her explorations. "You're okay, Barty."."Barty approached stair climbing as a mathematical problem, calculating the precise movement of each leg and placement of each foot necessary to successfully negotiate the obstacle. He proceeded less slowly on the next three steps than he had on the first three, and thereafter he ascended with growing confidence, pumping his legs with machinelike precision..This was not the same card he'd found at his bedside, under two dimes and a nickel, on the night following Naomi's funeral. He had torn that one and had thrown it away..Her brothers' solemnity irritated Agnes. They appeared to be taking this reading seriously, as though it were far more than just a little after-dinner entertainment..He pushed on the door, but still it resisted, and he surprised himself by letting out a bellow of frustration that expressed quite the opposite of self-control, though no one listening could have the slightest doubt about his determination to commit and command..He was having difficulty focusing his attention on the problem at hand. Through his mind, odd and disconnected thoughts rolled like slow, greasy, eye-of-the-hurricane waves on an ominous sea..were uniformly negative, frequently hilarious, but never as succinct and violent as Sklent's..Many police agencies required an officer to carry a firearm even when off duty. If the Oregon State Police had no such rule, Vanadium most likely carried one anyway, because in his crazy-as-a-snake mind,.Between Isleton and Locke, Junior first became aware of several points of soreness on his face. He could feel no swelling, no cuts or scrapes, and the rearview mirror revealed only the fine features that had caused more women's hearts to race than all the amphetamines ever manufactured..Although not quite as young as Bavol Poriferan, this artist was equally adored by critics and widely

regarded as a genius. He went by a single and mysterious name, Sklent, and in the publicity photo of him that was posted in the gallery, he looked dangerous..As kids-living in a house that was run like a prison, stifled by the oppressive rule of a morose father who believed that any form of entertainment was an offense against God-they conducted secret card games as their primary act of rebellion. A deck of cards was small enough to hide quickly and to keep hidden successfully even during one of their father's painstakingly thorough room searches..A cheer went up from family and friends, and Agnes could only imagine what it must feel like to be Barty, both blind and blessed, his heart as rich in courage as in kindness..The spirit of Bartholomew . . . will find you ... and mete out the terrible judgment that you deserve..Although she was aware that these extraordinary events would shape the rest of her life, beginning with her actions in the hours immediately ahead of her, she could not clearly see what she ought to do next. At the core of her confusion was a conflict of mind and heart, reason and faith, but also a battle between desire and duty. Until she was.As one, those around the table raised their eyes to the ceiling and smiled at the sound of the downpour. Barty, with patches over his empty sockets, also looked up with a smile..Behind them, two shots roared, and Paul knew that the reverend was no longer of this world..For the next few days, they would eat all their meals in the suite. Most likely, Cain had left San Francisco. And even if the killer hadn't fled, this was a big city, where a chance encounter with him was unlikely. Yet having, assumed the role of guardian, Tom Vanadium had a zero tolerance for risk, because the inimitable Mr. Cain had proved himself to be a master of the unlikely.
