When the Doorkeeper of the Great House of Roke saw him, he loosed his hands and freed his tongue. And the first thing the boy did in the Great House, they say, he turned the Long Table of the dining hall upside down, and soured the beer, and a student who tried to stop him got turned into a pig for a bit... But the boy had met his match in the

A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..But the spirit of rivalry worked in the boy as he grew to be a man. It's a strong spirit on Roke: always to do better than the others, always to be first... The art becomes a contest, a game. The end becomes a means to an end less than itself... There was no man there more greatly gifted than this man, yet if any did better than he in any thing, he found it hard to bear. It frightened him, it galled him..To reach out the Hand to Enlad and Ea. I've never gone there. We know nothing about their."Double-hearted? You? Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him..about the Child Taker, as an encouragement to distrust strangers..wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune.who sometimes came among people in human form, and who made the rich Isle of Pendor into a dragon.He said, "I lost my way. Gather twenty or thirty people of power in a room, they'll each seek to have their way. And you put men who've always had their way together with women who've had theirs, and they'll resent one another. And then, too, there are some true and

real divisions among us, Medra. They must be settled, and they can't be settled easily. Though a little goodwill would go a long way." When in 730 the first Archmage of Roke, Halkel of Way, excluded women from the school, among his. Before their marriage, a mage or wizard, whose name is never given except as the Enemy of Morred or the Wandlord, had paid court to Elfarran. Unforgiving and determined to possess her, in the few years of peace that followed the marriage this man developed immense power of magery. He had fed the chickens, and come back to the house with three eggs, they were still warm in his hand, silky brown lukewarm eggs, and the sound of thunder was still in his mind, the vibration of thunder was in his bones, in his feet. Thunder?."Aha. Well, in a sense -- yes. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen.
