Weak and shaky as he was, he would not set his burden down on the load, but clambered into the cart holding her, and held her all the miles to Woodedge. All he said was "She saved me," and the carter asked no questions..The weather was fair for once: a following wind, a blue sky lively with little white clouds, the mild sunlight of late spring. Everything will change but them." He looked up into the trees."Everything's perilous," Dragonfly said, gazing now through the sheep, the hill, the trees, into still depths, a colorless, vast emptiness like the clear sky before sunrise..This language is innate to dragons, not to humans, as said above. There are exceptions. A few human beings with a powerful gift of magic, or through the ancient kinship of humans and

dragons, know some words of the Old Speech innately. But the very great majority of people must learn the Old Speech. Hardic practitioners of the art magic learn it from their teachers. Sorcerers and witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently as the dragons do..from horseback; yet he felt short, he felt small..Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra walked through the night. He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness.. "Well, why can't you do it all? The magic and the music, anyhow? You can always hire a. The coppers weren't decently in a bag, even. Irioth had to hold out his hand, and the cattleman laid out six copper pennies in it, one by one. "Now then! That's fair and square!" he said, expansive. "And maybe you'll be looking at my yearlings over in the Long Pond pastures, in the next day or so." "Why can't we build fishing boats, the way we used to?" he asked, and his father said, "Because. Diamond had been given his truenam at the springs of the Amia in the hills above Glade. The wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And Hemlock was invited to his nameday party the year after, a big party, beer and food for all, and new clothes, a shirt or skirt or shift for every child, which was an old custom in the West of Havnor, and dancing on the village green in the warm autumn evening. Diamond had many friends, all the boys his age in town and all the girls too. The young people danced, and some of them had a bit too much beer, but nobody misbehaved very badly, and it was a merry and memorable night. The next morning Golden told his son again that he must think about being a man. "She's very sick, Rush," the girl said. She looked again at Tern. "You're not a healer?" It was an accusation.. "Why don't you answer?"..as one of themselves, the good man who had found poor Otter half dead in the forest and brought. "No use," said the old wizard, grinning, "you're only wind and sunlight. Like the witch..At first he had thought Diamond had a knack such as many children had and then lost, a stray spark of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and sparkle. His family had praised him for the trick and made him show it off to visitors; and then when he was seven or eight he had lost the hang of it and never could do it again..He told her, as well as he could. "We were strangers. Yet she gave me her name," he said. "And I gave her mine." He spoke haltingly, with long pauses. "It was I that walked with the wizard, compelled by him, but she was with me, and she was free. And so together we could turn his power against him, so that he destroyed himself." He thought for a long time, and said, "She gave me her power."..Otter's will. Nor did Otter himself. He was too used to obeying others to see that in fact he had. "I'd prefer the 'or.'
