

THE REVIEW OF APPLIED ENTOMOLOGY VOL 4 SERIES AN AGRICULTURAL

"If you share his power he won't harm you. To fear a power, to fight a power, is very dangerous. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the pouch, lifted it to his lips, and drank its contents. He opened his smiling mouth so that Otter could see the silver drops pooling on his tongue before he swallowed. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a. It is said that Segoy first wrote the True Runes in fire on the wind, so that they are coeval with the Language of the Making. But this may not be so, since the dragons do not use them, and if they recognise them, do not admit it. Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, on the edge of twilight, a low wall of stones. And as he looked he thought he saw a woman walking along beside the wall, very thin, insubstantial, bone, shadow. But she was not the dying woman in the bed. She was Anieb. clothes were soaked. "But you can't have me without the music." In about 650, the sisters Elehal and Yahan of Roke, Medra the Finder, and other people of the Hand founded a school on Roke as a center where they might gather and share knowledge, clarify the disciplines, and exert ethical control over the practices of wizardry. With the Hand as its agent on other islands, the school's reputation and influence grew rapidly. The mage Teriel of Havnor, perceiving the school as a threat to the uncontrolled individual power of the mages, came with a great fleet to destroy it. "Dirt's easier to keep clean," he said, knowing the struggle already lost. It was true that all you had to do with a good hard-packed clay floor was sweep it and now and then sprinkle it to keep the dust down. But it sounded silly all the same. But a year or so later he saw Diamond out in the back garden with his playmate Rose. The children were squatting on their haunches, heads close together, laughing. Something intense or uncanny about them made him pause at the window on the stairs landing and watch them. A thing between them was leaping up and down, a frog? a toad? a big cricket? He went out into the garden and came up near them, moving

so quietly, though he was a big man, that they in their absorption did not hear him. The thing that was hopping up and down on the grass between their bare toes was a rock. When Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the rock hovered in the air, and when he flipped his fingers downward it fell to earth. Gelluk's fall had not brought Losen down. The pirate king had other wizards in his pay, among them. With age Hound had come to look his name, wrinkled, with a long nose and sad eyes. He sniffed and seemed about to say he did not know, but he knew better than to try to lie to Early. He sighed. "Otter," he said. "Him that killed old Whiteface." "of?" Hemlock dismissed that with a flick of his hand. "I am talking of the True Art," he said. "Now I.A wizard, as Halkel defined the term, was a man who received his staff from a teacher, himself a wizard, who had taken special responsibility for his training.
